## WORK EXPERIENCE

---

### January 2023 to present (7 month) - present

I have work experience. My main principles are to make a quality product. After all, the most important thing is that the client is happy. We need to make applications as convenient as possible

I have used display, max-width, Tables, Inline-block, rounded corners, Responsive, Grid in these applications.

My first work was real estate rental marketing developed using html and css

The second is a bee magazine the third is furniture magazine

I built this app using bootstrap using table, buttons, navbar, input, modal, dropdown, columns.

I learned how to use the api while using reactjs. I used reactjs with router, component, props, event, useEffect, useState, render html. My first work is a food story

the second work is Blog SMS the third is the analysis24 site

the admin panel, where can create vehicles and polygons and connect each other. CRUD operations

### Skill

HTML : Forms, Media, Reference

CSS : Advanced, Responsive, Grif, Sass, Examples

JAVASCRIPT : Data Types,dates, events, arrays methods,  
string methods, objects methods, Loops,ES6,functions, DOM, BOM

BOOTSTRAP : Grids, Themes, Ref , Other

REACT : Components, event, props, forms, router, REST API, Postman

APIS : GET, POST,DELETE, Token

GIT: git commands
